

# Introducing the Alpha 3 Tonne Extreme

**ALPHA**  
SUSPENSIONS

**Holroyd**

Are you looking to maximise the payload capacity of your single axle caravan while ensuring safety and reliability on the road? Look no further! Our **Alpha Extreme 3 Tonne** Suspension System is the ultimate solution for enhancing your caravan's performance and payload capacity.

## Australian Made and Certified:

We take pride in manufacturing our suspension system right here in Australia, adhering to the highest quality and safety standards.

## Durability and Reliability:

Our suspension components are built to withstand the harshest Australian conditions, ensuring long-lasting performance and peace of mind on your journeys.

## Enhanced Payload Capacity:

By integrating our suspension system with the Holroyd 3T ATM Hub and Braking System, you can safely carry a larger payload without compromising stability or safety.

## Easy Installation:

Our suspension system is designed for easy installation, minimizing downtime and allowing you to hit the road with confidence in no time.

## Improved Towing Experience:

Experience smoother and more controlled towing, even with a heavier load, thanks to the superior design and engineering of our suspension system.

## Expert Support:

Our team of experts is always ready to assist you with any questions or installation guidance, ensuring a seamless experience.

Experience the best in  
Australian-made caravan  
suspension technology with  
Alpha & Holroyd.

## Upgrade Your Caravan Today!

Don't miss out on the opportunity to maximise your caravan's payload capacity while enjoying a safer and more comfortable towing experience. Upgrade to the 3T Alpha Extreme Suspension System today and embark on your next adventure with confidence.
